## Fuel Tank Cleaning Kit

Want that new fuel pump you just installed to last?  
Clean the gas tank first.

**Delphi's fuel tank cleaning kit (part number FC01) includes:**

- **One bottle of low-suds cleaning solution**
  - Specifically designed to easily treat and rinse up to a 40 gallon capacity fuel tank.
  - Removes microbial growth in the tank.
  - Breaks down varnish and gel from ethanol.
  - Minimizes sludge and other fuel contaminants.
  - Can extend the life of the new fuel sending unit by removing debris that may cause it harm.
- **Gloves**
- **Lint-free cloth**

**Part # FC01**

**Jobber  
Price Ea.  
\$8.00**

**DID YOU KNOW?**

Most returned fuel pumps fail due to installers not cleaning the gas tank properly. Contaminants can cause wear on the impeller causing the pump to fail due to low flow/low pressure.

To purchase Delphi's Fuel Tank Cleaning Kit (FC01), contact your sales representative today.

**Before installing a new fuel pump, it's critical to properly clean the gas tank.**

Debris in your gas tank can damage your new fuel pump. And the time it takes to clean out the debris – about an hour – is nothing compared to the time it takes to redo the entire job. So save yourself time, hassle and money – clean the tank before you replace the fuel pump.

The original fuel pump went into a clean tank. To ensure the same level of performance, the new fuel pump should go into a clean tank too.

# > 10 Steps to Properly Clean a Gas Tank.

Clean the fuel tank during every fuel pump replacement. The original pump went into a clean tank. To ensure the same level of performance, the new pump should go into a clean tank too.

**1**  **DRAIN FUEL TANK INTO AN APPROVED CONTAINER.**

**6**  **SWIRL CLEANING SOLUTION INSIDE TANK.**

**2**  **CLEAN RUST AND DEBRIS FROM THE TOP OF THE FUEL TANK.**

**7**  **DRAIN TANK AND DRY WITH COMPRESSED AIR.**

**3**  **REMOVE FUEL PUMP.**

**8**  **WIPE OUT TANK WITH LINT-FREE TOWEL.**

**4**  **SWIRL GAS TANK. POUR OUT REMAINING GAS AND DEBRIS.**

**9**  **VISUALLY INSPECT TANK. REPLACE TANK IF DAMAGED.**

**5**  **CLEAN THE TANK INTERIOR WITH A LOW-SUDS SOAP AND WATER MIXTURE\***

**10**  **CONFIRM TANK IS COMPLETELY DRY (MAY TAKE APPROXIMATELY 30 MINUTES)**

For your convenience, Delphi sells a Fuel Tank Cleaning Kit (FC01).

### Keep it Clean

The process is simple and clears old debris that could damage the new part that you just installed.

### Before You Clean (or do any repair), Think Safety First:

Wear safety glasses and gloves • Store fuel in an approved container • Have a fire extinguisher handy • Clean any spills immediately • Always relieve fuel pressure prior to opening fuel systems • Never smoke or work near anything that could cause a spark or ignite fuel • Work in well-ventilated area with a constant flow of fresh air • Dispose of any product, container and cleaning residues according to all local, state and federal laws and regulations. For disposal of gasoline and any fuel-containing cleaning residues, contact your local municipality for location of nearest appropriate waste disposal facility.
