PTC FUEL FILTERS

Provides Comprehensive Market Coverage Including Ford Powerstroke, GM Duramax & Dodge Cummins Diesel Applications!

PTC offers an extensive line of Fuel Filters for most domestic and import applications, including Ford Powerstroke, Diesel Fuel Filters for GM Duramax and Dodge Cummins engines. Universal fuel filters are also available in a variety of inlet / outlet line dimensions.

PGF408 2014 Jeep Grand Cherokee
3.0L Diesel Fuel Filter Now Available

KEY FEATURES AND BENEFITS INCLUDE:

- OE design, fit & function for easy installation and long dependable performance
- Ford Powerstroke, GM Duramax & Dodge Cummins Diesel Fuel filter applications available
- Diesel fuel filters use "High Efficiency" media paper recently developed for the OEM's to ensure premium filtration dependability & performance
- Metal and plastic universal fuel filter applications available
- No standard case quantities required – order what you need
- Over 400 SKU's available - provide over 95% market coverage

**DON'T IGNORE
THE IMPORTANCE OF
PROPER FUEL FILTER
REPLACEMENT
MAINTENANCE**

Replacing the fuel filter provides two benefits. First, the fuel filter protects the injectors from debris that cause damage and clogging. Second, a new fuel filter has less restriction, preventing the fuel pump from working too hard.

What happens if the filter is not replaced at recommended service levels?

On a late-model vehicle, the ECM pulses and varies the voltage to the pump to deliver the right amount of fuel to the fuel rail. This is why a lot of vehicles do not have return lines or pressure regulators. In order to achieve the correct fuel trim, the pump must deliver the correct pressure and volume to the rail. If the fuel trim is outside of OE parameters, it will adjust by pulsing and varying voltage to the fuel pump to overcome the restriction. **This can cause the premature death of a fuel pump.**

PTC DIESEL FUEL FILTERS

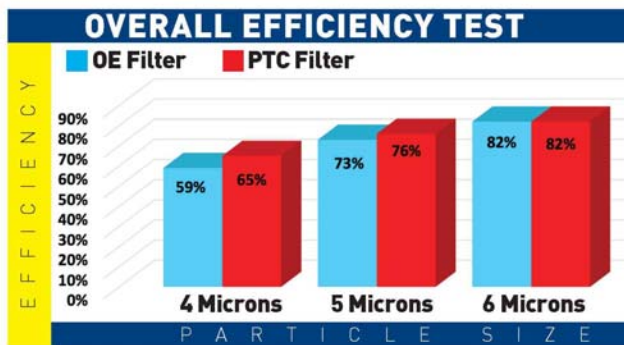

Make Sure Your Diesel Applications Run at Peak Efficiency with PTC Diesel Fuel Filters

Featuring Special "Made in USA" 3 Layer Media Paper!

To help ensure today's clean diesel vehicles are running at peak efficiency, PTC Diesel Fuel Filters use special USA made, "High Efficiency" 3 layer media paper. This is the same media paper that was originally developed by the OEM's to ensure premium filtration and dependability.

Don't settle for cheap alternatives!

PTC offers a full line of High Efficiency Diesel Fuel Filters for light and medium duty truck applications, including the GM Duramax and Dodge Cummins engines.

PTC EXCLUSIVE
PGF413
Now Available
for 2014-2016
Dodge Promaster
3.0L diesel engine
applications

We've got the right product, the right quality and the right price to meet your needs!

- Meets or exceeds OE performance for particle sizes of 6 microns and lower
- OE design, fit and function for easy installation and long dependable performance
- GM Duramax and Dodge Cummins Diesel Fuel filter applications available
- Diesel fuel filters use "High Efficiency" media paper (**made in the USA**) recently developed for the OEM's to ensure premium filtration dependability and performance
- No standard case quantities required – order what you need
- 25 Diesel Fuel filter SKU's available
